

Kiwifruit Orchard Owner - Max ATP result

We were picking our kiwifruit when we first started taking ATP. Even though I felt that I was match fit, we would have sore arms and shoulders early each day. The very next day after starting ATP, both my partner (Betty) and I noticed how much better we felt first thing in the morning- no sore muscles. We started our 12 hour shifts packing fruit, but we ran out of ATP for a few days. For the next 3 days that we were without ATP. We both struggled (much more tired). As soon as we started ATP once again we both hit the ground running and lasted all day. As far as I am concerned, it is a product that works!!
